RECEIVED

MAR 17 1958

Dear Dr. Collie:

GOVERNOR'S OFFICE  
TALLAHASSEE, FLORIDA

This will acknowledge your telegram of February 28, regarding the proposed junior college for Negroes in Palm Beach County.

Approval of that junior college is based upon the request of the Palm Beach County School Board. The amount of money available from the State of Florida for constructing buildings at this new institution is based upon a formula which is applied equally to all new junior colleges. It amounts to \$2,200 per student, and the State Department of Education informs me that this will take care of the immediate needs during this biennium. It is to be expected that successful junior colleges will receive additional building funds as they grow and develop.

The money is not available to Palm Beach County for any other purpose than to build facilities at Roosevelt Junior College. The law is very specific in this matter. This money may not be used at Palm Beach Junior College, or at a high school or for any other purpose than the Roosevelt Junior College.

The State Department of Education informs me that the purpose of this new institution will be to provide educational opportunity for young people who would not otherwise have this opportunity. Experience in Florida at Washington Junior College in Pensacola and at Gibbs Junior College in St. Petersburg has indicated a great need for this type of institution. These have both been successfully operated and are performing a great service in their areas of the State.

With kind regards, I am

Sincerely,

Governor

Dear Dr. Collie:

This is to acknowledge receipt of the petition from the Negro Intercivic League of Palm Beach County. We regret very much to learn of the apparent misunderstanding which is present among the Negro citizens in Palm Beach County.

Roosevelt Junior College is a legally established college approved by the State Board of Education upon request by the Palm Beach County Board of Public Instruction. The college is designed to provide educational opportunities at the post high school level for many youth and adults who would not otherwise have such opportunities.

The State Department of Education stands ready to be of service in helping this to develop into a successful and useful college. The early success of Gibbs Junior College in Pinellas County and the interest shown by Negro citizens in other parts of Florida clearly show that there is a need for this level of education, not only in Palm Beach County but in other parts of the state. We feel sure that the Roosevelt Junior College will perform a necessary and valuable service in Palm Beach County.

Very truly yours,

Thomas D. Bailey  
State Superintendent
